TECHNICAL SKILLS

- C#, C++, SQL
- HTML, CSS, JavaScript
- ASP.NET Core MVC
- Entity Framework / EF Core
- SQL Server
- Bootstrap
- Git (Basic)
- OOP & Data Structures
- Generative AI / AI Agents

LANGUAGES

- Arabic — Native
- English — Good

MOHAMED ABD ELNASSER MOHAMED

Computer Science & AI Student | Full-Stack .NET Developer

PERSONAL SUMMARY

Computer Science and Artificial Intelligence student with a strong foundation in C++, Object-Oriented Programming, Data Structures, and SQL. Currently undergoing an intensive 144-hour Full-Stack .NET Development track covering C# backend development, SQL Server, Entity Framework, ASP.NET MVC, and building custom AI agents with Generative AI. Combines solid CS fundamentals with hands-on, project-based experience building data-driven web applications, and is looking to contribute as a backend or full-stack .NET developer.

EDUCATION

Faculty of Computers and Artificial Intelligence *Expected Graduation: 2028*

Bachelor's Degree — Computer Science & Artificial Intelligence | Current Academic Standing: Very Good

TRAINING

Digital Egypt Pioneers Initiative (DEPI) & Information Technology Institute (ITI)

ITI: Completed · DEPI: In Progress — Intensive Full-Stack .NET Development Track (144 Hours)

- Building scalable backend applications using C# and ASP.NET Core MVC
- Writing advanced SQL queries and building data-driven apps with Entity Framework
- Building custom AI agents using Generative AI

PROJECTS

Restaurant Management Dashboard — ASP.NET Core MVC

- Full-stack dashboard with C#, ASP.NET Core MVC, EF Core, and SQL Server; CRUD for menu items, customers, orders, reservations, and employees
- Dynamic dashboard statistics and an order management flow with customer selection, pricing, and status tracking

Restaurant Database Management System

- Relational database design with multi-table joins and CRUD operations for restaurant operations

PERSONAL SKILLS

Team Player | Problem Solving | Fast Learner | Communication

CAREER OBJECTIVE

To obtain a position as a backend or full-stack .NET developer where I can apply my technical skills and hands-on training experience to build reliable, data-driven applications, while continuing to grow professionally in a collaborative environment.
